BLAST CELL DOORS

Manually operated closure for loading and unloading blast cells. Composed of durable vinyl material. Insulated with special bubble foil. Very efficient, easy to operate and maintain.

DOCK SEALS

Composed of vinyl covered foam pads. Creates positive seal at the loading dock during material handling. Reduces the escape of heated or cooled air.

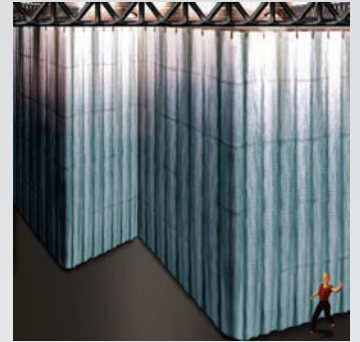

STRIP DOORS

PVC strip doors that come in a variety of different materials and thicknesses suited to your needs.

INDUSTRIAL CURTAINS

Create room dividers and temporary walls that allow mobility while avoiding the cost of permanent walls.

DOOR JAMBS STRUCTURAL STEEL TUBING

Frames are 3 piece with brackets for floor attachment. Pre-drilled and tapped for hardware.

Economical as well as high strength. Available in 2x4, 2x6, 2x8, and 2x10

DOOR JAMBS C-CHANNEL

Frames are 3 piece with brackets for floor attachment. Pre-drilled and tapped for hardware.

Custom fabricated to any wall thickness. Perfect for insulated panel walls.

INSULATED DOORS

Stainless steel and white metal doors for in-plant food processing.

CAFÉ DOORS

Self closing double acting traffic doors, constructed with various materials. Multiple designs and laminates available to suit any need.
